## EDUCATION

### Vinschool Central Park - Vietnam Private HighSchool, Hanoi

Aug 2024 - Present

*A-level Biology, Chemistry and Mathematics.*

- **GPA:** 9.0/10 (Grade 10), AAA (Grade 11), AAA Predicted (Grade 12, Semester 1)
- **IGCSE:** Mathematics (A\*), Coordinated Science (A\*), Computer Science (A)
- **IELTS:** 7.0 (Sep 2025)
- **Scholarships:** 90% A-Level Tuition Scholarship from Worthgate School and 80% A-Level Tuition Scholarship from Bosworth Independent School
- **Star Award:** Outstanding award for Biology (Grade 11) and Physical Education (Grade 10)

---

## HONORS AND AWARDS

### Gold Medal - Vinschool Science Innovation Challenge (VSIC), Vietnam

May 2026

- Developed a molecular docking model for Type II diabetes, integrating computational screening across five therapeutic protein targets and building visualisations for protein-ligand interactions.
- Presented the prototype and research poster to facilitate hands-on testing for judges. Awarded one of three first-prize teams among approximately 40 teams.

### Gold Award - International Creative Papers Conference (ICPC), Korea

Mar 2026

- Presented a scientific research project in an international online research competition through a research poster, video presentation, and project brochure. Recorded and submitted a scientific presentation to communicate the research findings.

### Top 20 Finalist - Pre-University Adelaide Research Competition for Students, Vietnam

Feb 2026

- Authored a 7-page original research proposal and presented it in an online competition with approximately 64 participants; selected as a Top 20 Finalist, placing in approximately the top 31% of participants. Ranked 13th overall out of 70 selected participants.

### Silver Award - International World Innovative Student Exhibition (iWISE), UAE

Jan 2026

- Presented a scientific research project at an international innovation exhibition in Dubai, communicating the research through a poster, recorded presentation, and supporting materials.

### Gold Award - World Invention Creativity Olympic (WICO), Korea

Jul 2025

- Presented a 34-page scientific research paper and interactive project model to an international judging panel representing participants from approximately 80 countries. Communicated the research findings through a poster, recorded presentation, and project brochure, while facilitating hands-on interaction with the prototype.

### Finalist, Winning Group (Senior Division) - Global Youth Summit (GYS), Vietnam

Jun 2025

- Collaborated as a team to deliver a cashew testa valorization project, exploring the extraction of bioactive polyphenols from an agricultural by-product for potential antioxidant applications; advanced to the Senior Division Finals as 1 of 6 finalist teams among 14 competitors.

### Delegate & Full-Scholarship Recipient of Kyoto SDGs Youth Summit, Japan

Mar 2026 - Present

- Selected as 1 of 9 full-scholarship recipients from 60 applicants (top 15%) to represent Vietnam at the Kyoto SDGs Youth Summit in Japan. Collaborated with international delegates on Sustainable Development Goal (SDG) projects, exchanging perspectives on global sustainability challenges and developing cross-cultural teamwork, communication, and leadership skills.

### World Scholar's Cup - Regional & Global Rounds

May - Jun 2024

- Competed in debate, collaborative writing, and Scholar's Bowl across the Regional Round in Da Nang and Global Round in Bangkok. Earned 5 trophies and 14 medals across both rounds, including 6 Gold and 8 Silver Medals.

## PROJECTS

---

### Top 10 Finalist - SIM-LSE Data Analytics Challenge (2026)

Jul 2026

- Contended in a retail data analytic challenge using Tableau, developing an interactive dashboard and translating data-driven insights into actionable business recommendations through a set of pitch deck; selected as a Top 10 Finalist among 29 competing teams.

### 1st Place - Future Innovator Camp (FINO)

Jul 2024

- Developed a customizable helmet addressing key user needs in safety, comfort, and usability. Conducted user and problem research, designed a prototype with 12 integrated features using Adobe and AI tools, developed product specifications, and built a business plan and investment pitch presenting the product's value proposition and market potential. Won 1st Prize and received VND 5 million in program funding.

## RESEARCH

---

### Molecular Docking Model for Type II Diabetes Targets

Aug 2025 - Jun 2026

- Built a computational molecular-docking workflow across five therapeutic protein targets (SUR1, DPP4, GLR-1R, PPAR- $\gamma$ , SGLT2) implicated in Type II diabetes, selecting and optimizing protein structures, docking parameters, and active-site grids using AutoDock Vina.
- Developed an interactive web platform to visualize protein-ligand interactions and support computational drug screening.

### Cashew Testa Bioactive Polyphenol Research

Jan 2025 - Sep 2025

- Conducted a 9-month research project investigating the valorization of cashew testa, an underused agricultural by-product, through ultrasound-assisted extraction of bioactive polyphenols. Evaluated antioxidant activity using DPPH and ABTS assays and antimicrobial activity through disk diffusion and MIC testing. Developed a prototype antioxidant skincare cream from the extracted polyphenols and published the research findings.

## EXTRACURRICULAR ACTIVITIES

---

### Deputy Head, Science Research & Content of The Institute of Vi  ce (TIV)

Mar 2026 - Sep 2026

- Led the scientific review and publication process for a 32-member academic team, reviewing research articles for scientific accuracy and coordinating their preparation and publication. Worked within a leadership team of 1 Head and 3 Deputy Heads, strengthening editorial quality, research communication, and workflow across the organization.

### Free IGCSE Mathematics Online Mentor

Feb 2025 - Jun 2025

- Designed and delivered weekly IGCSE Mathematics lessons free of charge for 6 students over 5 months, developing structured lesson plans and adapting to students' learning needs.

### Sea Turtle Conservation Program at Nui Chua National Park, Vietnam

Jun 2024 - Jun 2025

- Participated in two annual volunteer trips during sea turtle nesting season, supporting conservation activities at Nui Chua National Park while contributing to local communities through basic IT classes for children.

### Wildlife Conservation Program at Nam Cat Tien National Park

Jun 2024 - Jun 2025

- Completed a one-week field volunteering program at Nam Cat Tien National Park, participating in wildlife conservation and environmental protection activities. Contributed to local biodiversity conservation efforts while developing environmental awareness through hands-on fieldwork.

### Green Agriculture Volunteer Program in Quang Nam

Jul 2024

- Participated in a one-week sustainable agriculture volunteer program, supporting hands-on farming activities and teaching English alongside international volunteers.

### Reforestation Program in Binh Chau-Phuoc Buu

Jul 2024

- Participated in a three-day reforestation program, contributing to tree planting and forest restoration activities in Binh Chau-Phuoc Buu.
